Responsible Use Guidelines

When creating and submitting a use case, follow the same responsible use guidelines as when working with M365 Copilot. Ensure your submitted use case meets the

requirements below:

Requirements for any submitted use case:

1. **Avoid sensitive or unauthorized information**: Do not include *Top Secret, Personally Identifiable Information (PII),* or other restricted data types in your use case. Refer to the **M365 Copilot Information Sources** for guidance.
2. **Anonymize examples**: Ensure example prompts do not reveal sensitive or personal information (e.g., employee names).
3. **Validate outputs**: Always verify, validate, and cross-check any Copilot-generated content used in your use case.

Note: All submitted use cases are reviewed by appointed sector approvers. Only approved use cases are made visible to others.
