3. **Review your all submitted information** to ensure it meets our [Responsible Use Guidelines]. Once confirmed, click “Submit”.
4. **Your submission will be reviewed** by the selected use case approver. Check the approval status column of your use case on SharePoint. **If needed, revise your use case based on the feedback** and inform the approver when updated.
5. **Once approved**, your use case will be **visible for everyone** in the CRE use case library!

Four-Step Guide to Submitting Your M365 Copilot Use Case

y sharing your use case in the ASML Use Case Library, you an inspire colleagues and help them discover practical ways to verage Copilot.

Step 1

Go to your sector's Use Case Library and click the "Submit Your Use Case" button

This will open the sector's use case submission form.

When to submit a Copilot use case?

- You have a concrete example of how M365 Copilot helped you complete a specific task, solve a challenge, or improve a process.
- You believe others can learn and be inspire from how you use M365 Copilot at work!

Step 2

Complete the submission form and review your use case details

What to check before submitting?

Is your use case..

1. Clear and easy to understand.
2. Complete in its steps and with enough detail.
3. Aligned with our Responsible Use Guidelines.

Step 3

Once submitted, your sector's use case approver will review your use case

Who are my sector's use case approvers?

- Find the name(s) of your sector's use case approvers here: Sector's Use Case Approvers
- Once submitted, the approver will receive a request to review your use case.

Step 4

Find your approver's response in the approval status of your use case

Where to find the approvers response?

- Once reviewed, find the response under the *Approval status* of use case. If needed, revise your use case based on the feedback and inform the approver when updated. Once approved, your use case will be visible in your sector's Use Case Library.

Responsible Use Guidelines

When creating and submitting a use case, follow the same responsible use guidelines as when working with M365 Copilot. Ensure your submitted use case meets the requirements below:

Requirements for any submitted use case:

1. **Avoid sensitive or unauthorized information**: Do not include *Top Secret, Personally Identifiable Information (PII),* or other restricted data types in your use case. Refer to the **M365 Copilot Information Sources** for guidance.
2. **Anonymize examples**: Ensure example prompts do not reveal sensitive or personal information (e.g., employee names).
3. **Validate outputs**: Always verify, validate, and cross-check any Copilot-generated content used in your use case.

Note: All submitted use cases are reviewed by appointed sector approvers. Only approved use cases are made visible to others.
